Chapter II

United Nations financing and programming

The financial situation of the United Nations at the end of 2014 was generally sound. The cash position was positive for peacekeeping operations and the tribunals, although it was necessary to draw on the regular budget cash reserves, both the Working Capital Fund and the Special Account, during the last months of the year. Unpaid assessments were lower in 2014 than at the end of 2013 in all categories, except the regular budget. In the last quarter of 2014, however, unpaid assessments for the regular budget were reduced from $1 billion to $535 million. For peacekeeping operations, unpaid assessments amounted to $1.28 billion at the end of 2014, a decrease of $916 million compared to the previous year. At the end of 2014, a total of 144 Member States had paid their regular budget assessments in full, two less than the number in 2013.

In December, the General Assembly adopted final appropriations for the 2014–2015 biennium, increasing the amount of $5,538,551,400 approved in 2013 and in April and June 2014, by $115,271,900, to $5,653,823,300, and increasing income estimates by $11,320,700 to $535,245,900. It also adopted revised budget appropriations totaling $2,939,230,800. The Assembly endorsed the proposed strategic framework for the 2016–2017 biennium, which focused on eight priority areas, and invited the Secretary-General to prepare the proposed programme budget for that biennium on the basis of a preliminary estimate of $5,558,395,600. The Assembly, in December, affirmed its commitment to consider and decide on the independent study on re-costing and options for the Organization in dealing with fluctuations in exchange rates and inflation and the recommendations contained therein. The Assembly granted five Member States exemptions under Article 19 of the UN Charter so that they could be permitted to vote in the Assembly until the end of the sixty-ninth session.

The Committee on Contributions continued to review the elements of the methodology for the preparation of the scale of assessments and the scale for the period 2013–2015. The Committee welcomed the increasing number of Member States implementing the more recent standards under the 1993 System of National Accounts (SNA) or the 2008 SNA, and recommended that the Assembly encourage Member States to submit the required national accounts questionnaires under the 1993 SNA or the 2008 SNA on a timely basis. It decided to further consider all elements of the scale methodology at its future sessions in the light of guidance from the Assembly. Implementation of the International Public Sector Accounting Standards throughout the UN system continued.

Financial situation

In a May report [A/68/524/Add.1] on improving the financial situation of the United Nations, the Secretary-General noted that as at 30 April, cash balances were positive across all categories, although the regular budget situation was expected to tighten again in the last quarter of the year, although the regular budget situation was expected to tighten again in the last quarter of the year. Payments received were higher at $1.68 billion, compared with the $1.53 billion received by the same date the previous year. Unpaid assessments amounted to $1.39 billion, $13 million below the level unpaid at 30 April 2013. Despite those improvements, unpaid regular budget assessments continued to be highly concentrated. It had not been necessary so far to utilize the Working Capital Fund.

In an October report [A/69/520], the Secretary-General provided an update on the financial strength of the Organization on the basis of four main financial indicators: assessments issued, unpaid assessments, available cash resources, and the Organization’s outstanding payments to Member States. Overall, the financial indicators for 2014 were positive, although the level of cash available for the regular budget continued to be a major concern. Assessments for the regular budget were higher than those for 2013, by $6 million. Unpaid assessments were higher for the regular budget and lower for peacekeeping operations and the Capital Master Plan (CMP) than they were in 2013, while those for the international tribunals remained unchanged. Unpaid assessments at 2 October 2014 were higher by $92 million than at 1 October 2013, with outstanding amounts of $1.037 billion and $945 million, respectively. The level of outstanding payments to Member States was projected to decrease considerably. As at 2 October 2014, 125 Member States had paid their regular budget assessments in full, nine less than at 1 October 2013. The $1.037 billion that remained outstanding at 2 October 2014 was highly concentrated among a few Member States. At 2 October, the regular budget cash amounted to $35 million, excluding the Working Capital Fund.
($150 million) and the Special Account ($234 million). The level of cash available for the regular budget was low, and the situation was expected to tighten further towards the end of the year. Taking into account the reserves, a total of $419 million cash was available. In addition, the approved commitment authority for the United Nations Mission for Ebola Emergency Response (UNMEE) approved by General Assembly resolution 69/3 (see p. 000) would draw on regular budget cash, adding pressure to the overall cash position of the General Fund. While the regular budget cash, including reserves, stood at $419 million, disbursements through the end of the year were projected at around $800 million.

The unpaid amount for peacekeeping operations at 2 October was $2.6 billion, out of a total of $5.8 billion assessed in 2014. Contributions received amounted to $5.5 billion. The amount of cash available for peacekeeping operations as at 2 October was approximately $4.25 billion: $3.8 billion in the accounts of active missions; $310 million in the accounts of closed missions; and $134 million in the Peacekeeping Reserve Fund. Outstanding payments to Member States, which at the end of 2013 amounted to $513 million, were projected to decrease to $501 million by the end of 2014. At 3 October, a total of some $1.3 billion was owed to Member States: $585 million for troops and formed police units, $602 million for contingent-owned equipment claims for active missions, and $86 million for closed missions.

In his end-of-year review of the Organization’s financial situation [A/69/520/Add.1 & Corr.1], the Secretary-General said that the financial situation of the Organization at the end of 2014 was generally sound. The cash position was positive for peacekeeping operations and the tribunals, although it was necessary to draw on the regular budget cash reserves, both the Working Capital Fund and the Special Account, during the last months of the year. Unpaid assessments were lower than at the end of 2013 in all categories, except the regular budget. Cash balances were positive for peacekeeping operations and the tribunals. The cash position of the regular budget and CMP had tightened considerably by year-end, resulting in shortfalls that were covered by regular budget cash reserves. The final cash position for the regular budget at 31 December reflected a cash shortfall of $81 million, which was covered by the Working Capital Fund. There was a significant reduction in the level of unpaid regular budget assessments in the last quarter of 2014 (from $1 billion to $535 million). By the end of 2014, the total of 144 Member States had paid their regular budget assessments in full, two less than in 2013. Unpaid assessments for peacekeeping operations amounted to $1.28 billion at the end of 2014, reflecting a significant decrease of $916 million compared to the $2.2 billion outstanding at the end of 2013. Total cash available for peacekeeping at the end of 2014 was $4.3 billion, comprising $3.84 billion in the accounts of active missions, $294 million in the accounts of closed missions and $138 million in the Peacekeeping Reserve Fund. As regards outstanding payments to Member States, the amount owed for troops, formed police units and contingent-owned equipment totalled $779 million at 31 December.

The financial position of the international tribunals improved in 2014. Unpaid assessments decreased to $40 million during the last quarter, from the $60 million reported in October, which was significantly lower than the $54 million outstanding at the end of 2013.

On 29 December, (decision 69/554), the General Assembly decided that the agenda item on improving the financial situation of the United Nations remained for consideration during its sixty-ninth session.

**UN Budget**

**Budget for 2014–2015**

**Revised appropriations**

In the first performance report on the 2014–2015 programme budget [A/69/612], the Secretary-General presented revised estimates as a result of variations in costing parameters, unforeseen and extraordinary items and additional mandates. The revised estimates under the expenditure sections of the budget amounted to $5,573.3 million, an increase of $34.7 million compared with the appropriation level approved by the General Assembly in resolutions 68/247 B (see p. 000), 68/248 A–C [YUN 2013, p. 1446], 68/268 (see p. 000) and 68/279 (see p. 000). The revised estimates under the income sections increased by $9.1 million resulting in a revised income estimate of $533 million.

In December [A/69/661], the Advisory Committee on Administrative and Budgetary Matters (ACABQ) noted that the income estimates in connection with income section 3 (political affairs) required downward revision over the past three bienniums, calling into question the validity of the initial budget assumptions for the related income-generating activities. The Committee intended to keep that matter under review in the context of its consideration of the proposed programme budget for the 2016–2017 biennium. ACABQ recommended that the Assembly approve the revised estimates.

5. Recalls paragraph 5 of the report of the Advisory Committee, and notes that the guard unit of the United Nations Assistance Mission in Somalia will provide “inner-ring” static protection within Mogadishu International Airport and that the associated costs are included in the resources for the Mission;
6. Requests the Secretary-General to provide to the General Assembly for consideration at its sixty-ninth session detailed information on support requirements for the Mission provided by the United Nations Support Office for the African Union Mission in Somalia;
7. Decides to adjust the resource requirements for military and police personnel relating to the guard unit to reflect the delayed deployment of personnel;
8. Takes note of paragraph 9 of the report of the Advisory Committee, and decides to apply a vacancy rate of 25 per cent for the period from May to December 2014 in respect of the additional posts in the Office of the Special Adviser to the Secretary-General on Yemen;
9. Encourages close collaboration between the security and close protection operations of the Office of the Special Adviser and the Panel of Experts on Yemen, in order to avoid, to the extent possible, any duplication;
10. Recalls paragraph 14 of the report of the Advisory Committee, and in this regard decides to defer consideration of this matter to the main part of its sixty-ninth session;
11. Also recalls paragraph 9 of the report of the Advisory Committee, decides to consider the question of temporary duty assignments at its sixty-ninth session, while maintaining existing arrangements in the interim, and emphasizes that such assignments are intended to meet temporary requirements for up to 90 days;
12. Takes note of paragraph 15 of the report of the Advisory Committee, and decides to establish one Local level position in the Transport and Movement Control Section of the United Nations Support Mission in Libya;
13. Decides to approve the total amount of $47,693,200 United States dollars net for the budgets of the five special political missions authorized by the General Assembly and/or the Security Council included in the reports of the Secretary-General;
14. Also decides to approve a charge totalling $47,693,200 dollars net against the provision appropriated for special political missions under section 3, Political affairs, of the programme budget for the biennium 2014–2015.

In October [A/69/363 & Corr.1, 2, 3 & Add. 1–5], the Secretary General submitted proposed resource requirements for 2015 for 35 special political missions authorized by the General Assembly and/or the Security Council. The total estimated requirements amounted to $485,160,800 net ($513,182,600 gross). Of that requirement, $435,094,000 (net of staff assessment) would be charged against the balance of $435,094,000 remaining in the provision of $1,081,089,900 for special political missions appropriated under section 3, Political affairs, of the 2014–2015 programme budget, after taking into account the underexpenditure of $11,966,000 (net of staff assessment) in 2014. The General Assembly was requested to approve the remaining amount of $38,100,800, net of staff assessment ($40,314,500 gross), in additional appropriation for the 2014–2015 biennium.

ACABQ, in a December report [A/69/628], recommended that the Assembly approve the resources requested by the Secretary-General for the 35 special political missions for the period until 31 December 2015, subject to its observations and recommendations, and requested that the adjusted amount be provided to the Assembly at the time of its consideration of the Secretary-General’s proposals. In that regard, the Assembly was recommended to approve a charge totaling $435,094,000 net, corresponding to the undistributed balance in the provision for special political missions for the 2014–2015 biennium.

Revised estimates resulting from Economic and Social Council action

In an October report [A/69/535], the Secretary-General submitted additional requirements for the 2014–2015 biennium resulting from resolutions and decisions adopted by the Economic and Social Council during its 2014 session in the amount of $56,300, of which $5,400 could be absorbed within resources approved for the biennium. The remaining requirements of $50,900 would be subject to the procedures established by the General Assembly in its resolutions 41/213 [YUN 1986, p. 1024] and 42/211 [YUN 1987, p. 1098]. The requirements of $13,089,500 for the 2016–2017 biennium would be considered in the context of the proposed programme budget for that biennium (see below).

ACABQ, in a November report [A/69/609], recommended that additional requirements of up to $35,100 relating to the Committee of Experts on International Cooperation in Tax matters (see p. 000) be absorbed by the Department for General Assembly and Conference Management. The Committee stressed that the General Assembly had not yet considered the cost-sharing arrangement for the resident coordinator system and the related UN contribution. The Committee expected that any additional resource requirements relating to the UN share of the resident coordinator system would be submitted alongside
the proposed cost-sharing arrangement for consideration and approval by the Assembly. As regards the additional requirements of $89,500 relating to the provision of technical assistance and interpretation services to the United Nations Group of Experts on Geographical Names, Acaq would examine the Secretary-General’s proposal in the context of its consideration of the proposed programme budget for the 2016–2017 biennium.

Revised estimates resulting from Human Rights

Council action

In November [A/69/615], the Secretary-General submitted additional requirements totalling $52,073,200, resulting from resolutions and decisions adopted by the Human Rights Council at its 2014 sessions. Of those requirements, the amount of $25,048,800 relating to activities of a perennial nature was already included in the 2014–2015 programme budget, while the amount of $10,097,400 relating to commitment authorities approved by Acaq in 2014, and the related appropriations, was being sought in the context of the first performance report on the 2014–2015 programme budget. Of the balance of the requirements for 2014-2015 in the amount of $12,460,200, it was proposed that $158,300 be accommodated within the existing appropriations for that biennium, and that the remaining $12,301,900 (comprising $3,462,600 under section 2, General Assembly and Economic and Social Council affairs and conference management; $8,826,100 under section 24, Human rights; $2,000 under section 28, Public information, and $11,200 under section 29F, Administration, Geneva) be appropriated, representing a charge against the contingency fund for 2014–2015. The net additional requirements of $4,466,800 for the 2016–2017 biennium, would be considered in the context of the proposed programme budget for that biennium (see below).

Acaq, in December [A/69/670], recommended approval of the Secretary-General’s proposals, subject to its observations and recommendations.

Fluctuations in exchange rates and inflation

Report of the High-level Panel of Experts. In September [A/69/381], the Secretary-General transmitted to the General Assembly the report of the High-level Panel of Experts, established by resolution 68/246 [YUN 2013, p. 1448], on the study on recosting and options for the Organization in dealing with fluctuations in exchange rates and inflation. According to the report, given the biennial nature of the UN budget, the Secretariat frequently revised, or “recosted” budget estimates within a biennium to adjust for variation in currency exchange rates; actual inflation experience; changes in standard staff costs, including payroll and common staff costs; and vacancy rates previously approved by the Assembly. In practical terms, recosting had resulted in upward adjustments of the proposed programme budget during the biennium. Since budget year 2004–2005, the total realized final appropriations submitted to Member States were higher than initial appropriation estimates owing in part to recosting. On average, recosting over the first and second performance reports after the initial appropriations numbers were released to Member States had resulted in revisions of $71.5 million per biennium. Consequently, some Member States had become aggrieved by the upward revisions of required appropriations. Based on the existing recosting methodology, the Secretariat identified fluctuations in currency and inflation rates as the main drivers of the recosting effect. The study focused on the regular UN programme budget, excluding the peacekeeping budget, and presented options for addressing additional expenditures arising from inflation and currency exchange rate fluctuations. It also assessed previous options, but did not determine an acceptable level for the overall budget, nor determined acceptable programmatic funding levels, salary levels or vacancy management. The report included recommendations to help the Assembly and the Secretariat update the regular budget process to help manage uncertainty over the two-year budget period while meeting the Organization’s objectives.

The experts recommended an integrated and complementary set of proposals, addressing both external pressures, such as currency exchange rate fluctuations, and internal challenges. The recommendations included actions to increase the accuracy of budget forecasts, improve visibility and flow of information of risk exposures, reduce frequency of recosting moments, manage recosting risk through hedging, and other potential actions such as authorizing the Secretariat to formulate additional cost-management solution. Some proposals could be implemented immediately, while others, such as implementing an effective hedging programme, would take time and had prerequisite actions that required the Secretariat to be able to measure its relevant exposures. The Panel of Experts recommended that the Assembly might wish to decide on a package of actions in 2014; accordingly, the Secretariat could update processes in 2015 in time to shape the 2016–2017 regular budget. A road map for the implementation of the package of actions was proposed and set out in table 4 of the Panel’s report.

Acaq, in its December report [A/69/640], was of the view that the analysis conducted by the Panel contained several limitations, which had a detrimental effect on the overall quality of the report and the utility of its findings and recommendations. The Advisory Committee did not believe that the exclusion of special political missions from the Panel’s review was justified. A more in-depth review of the annual estimates submitted for those missions would have yielded a more
complete analysis of the different recosting dimensions contained within the UN programme budget. A broader analysis of the different budget sections within the regular budget and the variable effects of inflation and currency movements between different budget sections would have been essential given the globally dispersed nature of Secretariat activities. Moreover, a comprehensive analysis of the experiences and practices of other organizations in budgeting different cost factors and their potential applicability to the United Nations would have been useful, along with more detail on the unique nature of the United Nations, including the particularity of its budget processes and sources of funding. The Advisory Committee expected that Umoja, the Organization’s enterprise resource planning project [YUN 2008, p. 1591], once fully implemented, would properly satisfy the Secretariat’s need for timely, detailed information concerning currency exposures. The Advisory Committee was not convinced that a reduction in the frequency of recosting would necessarily have a major impact on the predictability of the budget, and considered that it was for the Assembly to determine whether any changes to the recosting methodology were required and, if so, to set its own parameters, including target dates for implementation. In addition, a decision to impose a recosting cap might lack technical merit and could have programmatic implications. ACABQ believed that the Panel did not fully analyze the impact of reserve funds, including whether their establishment would lead to higher initial assessments for Member States in respect of the UN programme budget. It believed that every effort should have been made to form a Panel with as wide a geographic representation as possible, which could have benefited from the relevant expertise available in all regional groups.

The Assembly, in resolution 69/262 of 29 December (see below), affirmed its commitment to consider and decide on the independent study on recosting and options for the Organization in dealing with fluctuations in exchange rates and inflation and the recommendations contained therein at the first part of its resumed sixty-ninth (2015) session, without precluding other options.

**Contingency Fund**

The Contingency Fund, established by General Assembly resolution 41/213 [YUN 1986, p. 1024], accommodated additional expenditures relating to each biennium that derived from legislative mandates not provided for in the programme budget or from revised estimates. Guidelines for its use were annexed to Assembly resolution 42/211 [YUN 1987, p. 1098].

In a December report [A/C.5/69/16] on the contingency fund, the Secretary-General submitted the consolidated statement of programme budget implications and revised estimates for the fund, which included $25,422,100 in potential new charges, exceeding the remaining balance ($13,836,000) of the fund by $11,586,100. Those potential charges were based on ACABQ recommendations at the time of the finalization of the report, and did not take into account the Committee’s recommendations relating to the revised estimates resulting from resolutions and decisions adopted by the Human Rights Council at its 2014 sessions, and the programme budget implications of the organization of the United Nations Summit (see p. 000) for the adoption of the post-2015 development agenda and the dates for the meetings of the process of intergovernmental negotiations on the post-2015 development agenda.

On 18 December [A/C.5/69/SR.25], ACABQ recommended that the General Assembly should be informed that the adoption of the draft resolutions relating to the organization of the United Nations Summit for the adoption of the post-2015 development agenda and the dates for the meetings of the process of intergovernmental negotiations on the post-2015 development agenda, would require an additional appropriation of $1,161,700, representing a charge against the contingency fund, under section 2 and section 34 of the 2014–2015 programme budget. ACABQ recommended the absorption of $153,200 under section 28 of the programme budget. It noted that the potential charges against the contingency fund for 2014–2015 once again exceeded the available balance, ACABQ reiterated its view that the contingency fund was an essential budgetary instrument for addressing additional resource requirements and emphasized the need to adhere to the provisions of Assembly resolutions 41/213 and 42/211 on its use. The Assembly was to consider the potential charges against the contingency fund related to new and expanded mandates and offer guidance accordingly.

**Programme criticality**

In October [A/69/530], in response to General Assembly resolution 67/254 A [YUN 2013, p. 1439], the Secretary-General submitted a report containing the final conclusions of the High-level Working Group on Programme Criticality. According to the report, under the Programme Criticality Steering Committee, the Coordination Team continued to support UN teams in country (in mission and non-mission settings) that wished to undertake programme criticality assessments. To date, support had been provided to 15 countries based on the programme criticality framework approved by the United Nations Chief Executives Board for Coordination in 2013. Training sessions on programme criticality were carried out with UN teams at the country level and various Headquarters personnel, contributing to better knowledge of the framework and its intended use throughout the UN system. An e-learning module was also developed. In January, the Steering Committee commissioned an independent review of programme criticality, which
concluded that, overall, the programme criticality framework was working as intended, and no major immediate changes to the framework were envisaged. It was expected that programme criticality would continue to be supported by the Steering Committee and the Coordination Team at the global and country levels based on demand from UN teams in country. All support would be provided on the basis of voluntary contributions and was subject to the availability of resources. The Assembly was requested to take note of the report.

Other questions

The General Assembly considered a number of other questions related to the 2014–2015 programme budget: the seventh progress report on the adoption of the International Public Sector Accounting Standards by the United Nations (see p. 0000); information and communication technology in the United Nations (see p. 0000); strategic heritage plan of the UN Office at Geneva (see p. 0000); progress in construction of additional office facilities at the Economic and Social Commission for Africa in Addis Ababa, Ethiopia, and proposals for the renovation of Africa Hall (see p. 0000); study of the long-term accommodation needs at UN Headquarters from 2014 to 2034 (see p. 0000); revised estimates resulting from the requests contained in General Assembly resolution 69/2 entitled “Outcome document of the high-level plenary meeting of the General Assembly known as the World Conference on Indigenous Peoples” (see p. 0000); revised estimates relating to the 2014–2015 programme budget on the Office of the Special Envoy on Ebola and the United Nations Mission for Ebola Emergency Response (see p. 0000); and financial implications relating to the administration of justice at the United Nations (see p. 0000).

Revised estimates in respect of special political missions, good offices and other political initiatives

In February [A/68/327/Add.9 & Corr.1], the Secretary-General submitted proposed additional net requirements for 2014 for the Panel of Experts on the Central African Republic, amounting to $1,476,100 (see p. 000).

In March [A/68/7/Add.25], ACABQ recommended approval of the Secretary-General’s request.

Implementation of recommendations from the after-action review of storm Sandy

In response to General Assembly resolution 67/254 A [YUN 2013, p. 1439], the Secretary-General submitted, in February [A/68/732], a report on progress in the implementation of the recommendation from the after-action review of storm Sandy. The review, conducted by the Secretariat, focused on the areas of governance of the crisis management programme, information and communications technology, physical infrastructure, communications, and support to staff. The report provided a description of the steps taken in preparation for the arrival of the storm, the impact of the storm on Headquarters and the main recommendations and action taken. It also provided a description of enhancements in emergency management resulting from the after-action review process, the recommendations of which were being mainstreamed into the Headquarters emergency management programme. Specifically, since the issuance of the Secretary-General’s 2013 report on the subject [YUN 2013, p. 1439], offices of the Department of Management worked closely with the Organization’s consultants and insurers to implement the remediation activities covered by the insurance programmes and to receive or plan for financial compensation for the damage. As at January, the Organization had recovered $64,169 million in costs incurred for works relating to the storm and anticipated further recoveries. Since the Secretary-General had utilized $62,140 million of the $131,421 million authorized by resolution 67/254 for the 2012–2013 biennium, no further commitment authority was necessary as the Organization could finance recoverable work relating to the storm for the reimbursed money already received. Expenditure for mitigation measures in 2013 amounted to $6,063,200 million out of the $6,0563,400 million appropriated by the Assembly. As at January 2014, approximately 81 per cent of the contracted remediation work had been completed, with full completion expected by the end of May. Construction remediation works planned but not yet under contract included: modifications to the building management system required for the chiller plant and modular chiller system; third basement level of the Conference, Secretariat and South Annex Buildings, including repairs to the security system; raising of air handling units; replacement of electrical equipment; repairs to plumbing systems; replacement of the coiling doors for the service drive; electrical work associated with elevators; restoration of doors, walls and floor finishes; and emergency and temporary work: removal of temporary chillers for the service drive. In terms of risk mitigation, a Secretariat team of risk management professionals located in the Insurance and Disbursement Service of the Accounts Division, was tasked with ensuring that the Secretariat’s insurance requirements were efficiently and optimally fulfilled. It was continually engaged to ensure that it provided comprehensive coverage at the best value for money for the Organization, while also attentively monitoring outstanding claims.

ACABQ in its March report [A/68/780], recommended that the Assembly request the Secretary-
General to complete implementation of the recommendations of the after-action review, finalize the global information technology disaster recovery plan and assessment, and address the weaknesses identified in the area of business continuity during the storm. The Committee emphasized the importance of ensuring that the information technology infrastructure, business continuity and disaster recovery arrangements put into place were sufficiently robust and effective to ensure the continuation or restarting of operations in the event of a disruption. It recommended that the Assembly request the Secretary-General to report on progress made in his report on the revised information and communications technology strategy to be submitted for consideration by the Assembly no later than at its sixty-ninth (2014) session.

Acabq noted the Secretary-General’s statement that no further commitment authority beyond the amount utilized in 2013 was required. **Proposed programme budget outline for 2016–2017**

**Report of Secretary-General.** In October [A/69/416], the Secretary-General presented the proposed programme budget outline for the 2016–2017 biennium, including a preliminary estimate of $5,698.5 million. The amount was subject to revision based on supplementary information to be provided to the General Assembly during its sixty-ninth (2014) session. The Secretary-General recommended that the level of the contingency fund for 2016–2017 be maintained at 0.75 per cent of the overall budget.

In establishing the preliminary estimate of resources for the 2016–2017 biennium, the approved level of resources appropriated by the Assembly in resolutions 68/247 B (see p. 0000), 68/248 A–C [YUN 2013, p. 1446], 68/268 (see p. 000) and 68/279 (see p. 000) amounting to $5,538.6 million was taken as the starting point.

**ACABQ report.** With regard to the proposed provisions, ACABQ, in a November report [A/69/556], pointed out that preliminary estimates based only on established activities amounted to $5,645.2 million. It noted that resource requirements relating to a number of initiatives requiring consideration by the Assembly were still to be determined and might further affect the level of the proposed programme budget for the 2016–2017 biennium. In that regard, the Committee recalled that the preliminary estimates of $5,645.2 million for 2016–2017 did not include provisions for the implementation of those requirements under consideration by the Assembly, and which would be reflected in the proposed programme budget for the 2016–2017 biennium. The Committee recommended approval of the Secretary-General’s proposal that the level of the contingency fund be maintained at 0.75 per cent of the overall budget level for the 2016–2017 biennium. It reiterated the need to go beyond incremental budgeting and to evaluate and consider the entire quantum of resources necessary to carry out the programmes and activities mandated by the Assembly and other organs.

**GENERAL ASSEMBLY ACTION**

On 29 December [meeting 77], the General Assembly, on the recommendation of the Fifth Committee [A/69/702], adopted resolution 69/264 without vote [agenda item 131].

Contributions

According to the Secretary-General’s report on the financial situation of the United Nations [A/69/520, Add.1 & Corr.1], unpaid assessments were significantly reduced in the last quarter of 2014, from $1 billion to $535 million. By the end of the year, 144 Member States had paid their regular budget assessment in full, two less than the number in 2013. The total amount outstanding for peacekeeping operations at the end of 2014 was $1.28 billion, reflecting a significant decrease of $916 million, compared to the $2.2 billion outstanding at the end of 2013. Unpaid assessments for the international tribunals at the end of 2014 was $40 million, which was significantly lower than the $54 million outstanding at the end of 2013.

Assessments

The Committee on Contributions, at its seventy-fourth session (New York, 2–20 June) [A/69/11 & Add.1], reviewed the methodology of the scale of assessment pursuant to rule 160 of the General Assembly’s rules of procedure and resolutions 58/1 B [YUN 2003, p. 1424] and 67/238 [YUN 2012, p. 1450]. The Committee examined a number of issues related to the methodology of the scale of assessments. It reaffirmed its recommendation that the scale should be based on the most current, comprehensive and comparable data available for gross national income (GNI). The Committee welcomed the increasing number of Member States implementing the standards under the 1993 System of National Accounts (SNA) [YUN 1993, p. 1112], or the 2008 SNA [YUN 2008, p. 1380]. It supported efforts by the Statistics Division of the Department of Economic and Social Affairs to enhance coordination, advocacy and implementation of SNA and supporting statistics at the national level, with a view to enabling Member States to submit national
scores on a timely basis with the required scope, detail and quality. It recommended that the Assembly encourage Member States to submit the required national accounts questionnaires under the 1993 SNA or the 2008 SNA on a timely basis. The Committee reaffirmed its recommendation that market exchange rates should be used in preparing the scale, except where that would cause excessive fluctuations and distortions in the GNI of some Member States expressed in United States dollars, in which case price-adjusted rates of exchange or other appropriate conversion rates should be applied, if so determined on a case-by-case basis. It agreed that, once chosen, there were advantages in using the same base period for as long as possible. The Committee decided to further consider all elements of the scale methodology at its future sessions in the light of guidance from the Assembly, and to study further the questions of large scale-to-scale changes and annual recalculation in the light of such guidance. The Committee decided to hold seventy-fifth session from 1 to 26 June 2015.

**Application of Article 19**

**Committee on Contributions.** The Committee on Contributions [A/69/11] reviewed requests for exemptions under Article 19 of the UN Charter, whereby a Member State would lose its vote in the General Assembly if the amount of its arrears should equal or exceed the amount of contributions due from it for the preceding two full years. The Committee considered requests for exemption from five Member States: Central African Republic, Comoros, Guinea-Bissau, Sao Tome and Principe and Somalia, which were the same in 2013 [YUN 2013, p. 1463]. Recognizing the continued difficult situation of those States and efforts in some cases to make some payments, the Committee recommended that they be allowed to vote until the end of the Assembly’s sixty-ninth session. At the conclusion of its session on 20 June, only one Member, Yemen, was in arrears in the payment of its assessed contributions under Article 19. The Committee encouraged the Member States concerned to address the growth in arrears by making annual payments exceeding current assessments in order to avoid further accumulation of debt, as well as the submission of a multi-year payment plan and to consult with the Secretariat as required.

In September [A/69/11/Add.1], the Committee reported that the number Member States seeking Article 19 exemptions was reduced to four, as the Secretary-General had advised that the Central African Republic had made payment in sufficient amount to reduce its arrears below the limit prescribed by Article 19 of the Charter. Yemen had also done so.

**Report of Secretary-General.** During the year, the Secretary-General reported to the Assembly on payments made by certain Member States to reduce the level of their arrears below that specified in Article 19, so that they could vote. As at 24 January, [A/68/716], 18 Member States were below the gross amount assessed for the preceding two full years (2012–2013). By a series of letters from January to August [A/68/716 Add. 1–11], that number was reduced to five.

**GENERAL ASSEMBLY ACTION**

On 9 October [meeting 22], the General Assembly, on the recommendation of the Fifth Committee [A/69/428], adopted resolution 69/4 without vote [agenda item 136].

Scale of assessments for the apportionment of the expenses of the United Nations: requests under Article 19 of the Charter

The General Assembly,

*Having considered* chapter V of the report of the Committee on Contributions on its seventy-fourth session,

*Reaffirming* the obligation of Member States under Article 17 of the Charter of the United Nations to bear the expenses of the Organization as apportioned by the General Assembly;

1. *Reaffirms* its role in accordance with the provisions of Article 19 of the Charter of the United Nations and the advisory role of the Committee on Contributions in accordance with rule 160 of the rules of procedure of the General Assembly;

2. *Also reaffirms* its resolution 54/237 C of 23 December 1999;

3. *Requests* the Secretary-General to continue to bring to the attention of Member States the deadline specified in resolution 54/237 C, including through an early announcement in the *Journal of the United Nations* and through direct communication;

4. *Urges* all Member States requesting exemption under Article 19 of the Charter to submit as much information as possible in support of their requests and to consider submitting such information in advance of the deadline specified in resolution 54/237 C so as to enable the collation of any additional detailed information that may be necessary;

5. *Agrees* that the failure of the Comoros, Guinea-Bissau, Sao Tome and Principe and Somalia to pay the full minimum amount necessary to avoid the application of Article 19 of the Charter was due to conditions beyond their control;

6. *Decides* that the Comoros, Guinea-Bissau, Sao Tome and Principe and Somalia shall be permitted to vote in the General Assembly until the end of its sixty-ninth session.

On 29 December (decision 69/554), the Assembly decided that the agenda item on the scale of assessments for the apportionment of the expenses of the United Nations remained for consideration during its sixty-ninth session.

**Multi-year payment plans**

In accordance with General Assembly resolutions 54/7 B [YUN 2002, p. 1385] and 67/238 [YUN 2012, p. 1450], the Secretary-General, in March [A/69/70], reported on the multi-year payment plan, under which, each year a Member State would pay for the current year’s assessment and a part of its arrears, so as to
eliminate the arrears within six years. The report provided information on the status of implementation of the plan submitted by Sao Tome and Principe as at 31 December 2013. The plan, which had a duration of eight years (2002–2009) would involve payments of $694,411, if fully implemented. Payments by Sao Tome and Principe, however, had fallen below the level foreseen for that period in its schedule of payments, with only $34,254 in payments and credits being applied for those years. During the period from 2010 to 2013, credits amounting to $3,536 were applied. The outstanding assessed contributions at 31 December 2013 amounted to $900,062.

The Committee on Contributions, at its June session [A/69/11], welcomed the payment made by Sao Tome and Principe in May 2014 and encouraged the country to review the plan and revise its terms, when possible. The Committee noted that no new multi-year payment plans had been submitted. It recalled the past experience of the successful implementation of plans by several Member States and recommended that the Assembly encourage those Member States in arrears under Article 19 of the Charter to consider submitting multi-year payment plans.

Other matters related to the payment of assessed contributions

Collection of contributions

The Committee on Contribution [A/69/11] noted that, at the conclusion of its session on 20 June, only one Member State, Yemen, was in arrears in the payment of its assessed contributions to the United Nations under the terms of Article 19 of the Charter and had no vote in the General Assembly. In addition, the five Member States (Central African Republic, Comoros, Guinea-Bissau, Sao Tome and Principe, Somalia) were in arrears in the payment of their assessed contributions under the terms of Article 19, but had been permitted to vote in the Assembly until the end of the sixty-eighth session, pursuant to Assembly resolution 68/5 [YUN 2013, p. 1463]. The Committee decided to authorize its Chair to issue an addendum to the report, if necessary. That addendum [A/69/11/Add.1] was issued in September.

The Committee noted that, as at 31 May, $2.6 billion was owed to the Organization for the regular budget, peacekeeping operations, the international tribunals and the capital master plan, reflecting a slight increase compared with the amounts of $2.4 billion and $2.5 billion outstanding as at 31 May 2013 and 2012, respectively.

Payment in currencies other than the United States dollar

Under the provisions of paragraph 16 (a) of its resolution 67/238 [YUN 2012, 1450], the General Assembly authorized the Secretary-General to accept, at his discretion and after consultation with the Chair of the Committee on Contributions, a portion of the contributions of Member States for the calendar years 2013, 2014 and 2015 in currencies other than the United States dollar. The Committee on Contributions noted that, in 2013, the Secretary-General had accepted the equivalent of $3,556,449.61 from Cyprus, Ethiopia, Morocco and the Sudan in non-United States dollar currencies acceptable to the Organization.

Accounts and auditing

The General Assembly, at its resumed sixty-eighth (2014) session, considered the report of the Board of Auditors on UN peacekeeping operations for the period from 1 July 2012 to 30 June 2013 [A/68/5 (Vol. II)] and the related ACABQ report [A/68/843], together with the report of the Secretary-General on the implementation of the recommendations of the Board of Auditors for the financial period ended 30 June 2013 [A/68/751], including updated information on those relating to prior periods as not having been fully implemented. The Assembly, in June, accepted the financial reports and audited financial statements of UN peacekeeping operations for the period from 1 July 2012 to 30 June 2013, and requested the Secretary-General to provide, in its next report on the implementation of the Board’s recommendations on UN peacekeeping operations, a full explanation for the delays in implementing all outstanding recommendations, the root causes of the recurring issues and the measures to be taken.

GENERAL ASSEMBLY ACTION

On 30 June [meeting 99], the General Assembly, on the recommendation of the Fifth Committee [A/68/610/Add.1], adopted resolution 68/19 B without vote [agenda item 131].

Financial reports and audited financial statements, and reports of the Board of Auditors

B

The General Assembly,

Recalling its resolutions 67/235 B of 28 June 2013 and 68/19 A of 4 December 2013,

Having considered the financial report and audited financial statements for the 12-month period from 1 July 2012 to 30 June 2013 and the report of the Board of Auditors on United Nations peacekeeping operations, the report of the Secretary-General on the implementation of the recommendations of the Board of Auditors concerning United Nations peacekeeping operations for the financial period ended 30 June 2013 and the related report of the Advisory Committee on Administrative and Budgetary Questions, 1. Accepts the financial report and audited financial statements of the United Nations peacekeeping operations for the period from 1 July 2012 to 30 June 2013;
2. **Takes note** of the observations and endorses the recommendations contained in the report of the Board of Auditors;

3. **Also takes note** of the observations and endorses the recommendations contained in the report of the Advisory Committee on Administrative and Budgetary Questions;

4. **Recalls** paragraph 11 of the report of the Board of Auditors and paragraph 36 of the report of the Advisory Committee, and decides to consider the question of the authority to move staff within the area of an individual mission during the second part of its resumed sixty-ninth session, while maintaining existing arrangements in the interim;

5. **Commends** the Board of Auditors for the quality of its report and the streamlined format thereof;

6. **Takes note** of the report of the Secretary-General on the implementation of the recommendations of the Board of Auditors concerning United Nations peacekeeping operations for the financial period ended 30 June 2013;

7. **Requests** the Secretary-General to ensure the full implementation of the recommendations of the Board of Auditors and the related recommendations of the Advisory Committee in a prompt and timely manner;

8. **Also requests** the Secretary-General to continue his efforts to improve asset management across peacekeeping missions, including by holding mission management accountable for checking stock levels before undertaking any acquisition activity in order to ensure compliance with established asset management policies, taking into account the importance of the full implementation of the International Public Sector Accounting Standards;

9. **Further requests** the Secretary-General to continue to indicate an expected time frame for the implementation of the recommendations of the Board of Auditors and the priorities for their implementation, including the office holders to be held accountable and measures taken in that regard;

10. **Requests** the Secretary-General to provide, in his next report on the implementation of the recommendations of the Board of Auditors concerning United Nations peacekeeping operations, a full explanation for the delays in the implementation of all outstanding recommendations of the Board, the root causes of the recurring issues and the measures to be taken.

In a July note \( [A/69/178 & Corr.1-7] \), the Secretary-General presented a concise summary of the principal findings and conclusions contained in those reports, and in August \( [A/69/353 & Add.1] \) he reported on the implementation of the Board’s recommendations contained in its reports for the biennium ended 31 December 2013, as well as on the capital master plan for 2013.

Commenting on the financial reports and audited financial statements and reports of the Board, ACABQ, in October \( [A/69/386] \), noted that all entities had received unmodified audit opinions from the Board. The Advisory Committee noted that there were no explicit guidelines concerning appropriate standards for the level of reserves across UN entities, and recommended that the General Assembly request the Secretary-General to invite the heads of UN entities to develop appropriate guidance with regard to reserves, clearly specifying the minimum and maximum levels, taking into consideration the distinct funding models and operational requirements for different UN entities.

**JIU report.** In a September note \( [A/69/378] \), the Secretary-General transmitted a report of the Joint Inspection Unit (JIU) entitled “Review of the management of implementing partners in United Nations system organizations.” According the report, partnerships with public and non-public entities had become essential for most UN system organizations in pursuing their mandates, many of which assigned implementation of programme activities to those implementing partners (IPs), and allocated resources to enable programme delivery. Overall, the volume of UN resources entrusted to IPs was significant, with some organizations expending over half their annual budgets via IPs. In transferring funds to third parties, UN system organizations were expected to establish governance structures and other measures of accountability...
to ensure that funds were used efficiently, for intended purposes, and with minimum risk of fraud, corruption and mismanagement. Against that standard, the UN internal and external auditors had repeatedly raised concerns over IPs performance and oversight. Member States, reflecting those concerns, were demanding greater accountability on resources allocated to IPs. JIU reviewed the methods used by those organizations to select and manage IPs and attempts to find common elements and challenges, and identified good practices. The report also included observations and suggestions addressed to executive management.

JIU found that a number of UN system organizations lacked a strategic approach to partnering and had ad hoc and incoherent efforts in engaging IPs. There were, however, ongoing efforts in some organizations to improve or develop institutional frameworks (policies, procedures and guidelines) for managing IPs. JIU made 12 formal recommendations (two to the legislative organs, and ten to executive heads of organizations). Among them, JIU recommended that executive heads of UN system organizations should ensure that their respective partnership arrangements involving the transfer of UN resources to third parties, notably IPs, were clearly defined as being distinct from other types of partnerships not receiving UN funding, as well as from commercial contracts, in order to make sure that appropriate rules and regulations applied in the different cases; ensure also that key information on IPs, such as expenditures by purpose, modality, and evaluation of their performance were readily available in their organizations and reported regularly to legislative bodies; establish rigorous IP assessment and selection processes to establish their capacity and potential weaknesses and risks and ensure their capability to fulfil programme delivery requirements; establish risk-based monitoring frameworks; and institute training in fraud awareness and prevention, with emphasis on fraud related to third parties, for staff engaged with IPs.

The Secretary-General, in a September note [A/69/378/Add.1], transmitted to the Assembly his comments and those of the United Nations System Chief Executives Board for Coordination on the JIU report.

Requests the Secretary-General, in his capacity as Chair of the United Nations System Chief Executives Board for Coordination, to invite the executive heads of the participating organizations to report on the ratios of programme delivery and overhead costs to help to drive cost-effective delivery of mandates;

16. Takes note of the reports of the Secretary-General on the implementation of the recommendations of the Board of Auditors contained in its reports on the United Nations for the biennium ended 31 December 2013 and on the capital master plan for the year ended 31 December 2013 and on the implementation of the recommendations of the Board contained in its reports on the United Nations funds and programmes for the financial period ended 31 December 2013;

Welcomes the report of the Joint Inspection Unit entitled “Review of the management of implementing partners in United Nations system organizations”, and requests the Secretary-General, in his capacity as Chair of the Chief Executives Board for Coordination, to invite the executive heads of the participating organizations to consider implementing the recommendations contained in the report.

Also on 29 December (decision 69/553), the Assembly decided to defer consideration of the Secretary-General’s report on implementation of the recommendations of the Board of Auditors contained in its reports on the United Nations for the biennium ended 31 December 2013, and on the capital master plan for the year ended 31 December 2013 and the related ACABQ report.

On the same date (decision 69/554), the Assembly decided that the agenda item on the financial reports and audited financial statements and reports of the Board of Auditors remained for consideration during its sixty-ninth session.

Financial management practices

International Public Sector Accounting Standards

In August [A/69/367], the Secretary-General transmitted the seventh progress report on the adoption of the International Public Sector Accounting Standards (IPSAS), which were approved by General Assembly resolution 60/238 [YUN 2006, p. 1580]. The report reviewed the progress of IPSAS implementation at the United Nations and throughout the UN system from 1 September 2013 to 31 August 2014. The Secretary-General noted that during the period 2008–2012, of 24 UN organizations, 21 had successfully migrated to IPSAS, and produced IPSAS-compliant financial statements for 2013, attesting to the capability of UN system organizations to sustain compliance with the standards. Implementation was on schedule for the remaining three organizations which, with an adoption date of 2014, were on schedule to produce their first IPSAS-compliant financial statements.

The achievement of key IPSAS project milestones during the reporting period, in particular for peacekeeping operations, included the finalization of IPSAS opening balances, and their review by the Board of Auditors, as well as the preparation of IPSAS dry run financial statements as at 31 December 2013. For the other operations of the United Nations, opening bal-
ances, as at 1 January 2014, were submitted by offices and were vetted and consolidated; further, the process of preparing dry run financial statements as at 30 June 2014 was launched. Another significant achievement was the agreement with the Board of Auditors on the definition and treatment of inventories in peacekeeping operations, including the methodology for estimating the value of non-financial inventory that would be presented in the IPSAS-compliant financial statements. The Assembly was requested to take note of the report, including the status of the IPSAS benefits realization plan and the proposed framework for IPSAS sustainability.

**Board of Auditors report.** By a July note [A/69/155], the Secretary-General transmitted the fourth and final progress report of the Board of Auditors on the implementation of IPSAS as at 30 June 2014. The report presented findings on the extent to which entities were realizing benefits from the adoption of IPSAS, the state of progress in its implementation in the United Nations and its peacekeeping operations and progress in the remaining entities going live in 2014. The Board also followed up on progress in implementing its previous recommendations. According to the report, there was tangible progress on benefits realization within UN entities that had already implemented IPSAS, with evidence of the new information under IPSAS being used as an enabler for improved financial reporting to management and for improved financial management capability and processes. That was laying the foundations for greater transparency in relation to the costs of operations and supporting improved decision-making at all levels of management. Nonetheless, the real test would be whether the entities could translate the new information into measurable improvements in operations and the cost-effective delivery of mandates—that was where more progress was needed and where the Board would focus in its future audits at the entity level. By the end of 2014 all UN system entities, including the United Nations and its funds and programmes, would have implemented IPSAS. The level of progress reflected the commitment and energy of the entities concerned and represented a major step towards the modernization of the UN system. All entities that went live in 2012 received a second unqualified audit opinion, and the remaining entities going live in 2014 had made significant progress. Given the complexities of a highly federated organization and the challenges of a parallel roll-out of a new global enterprise resource planning system, the implementation of IPSAS in the United Nations and its peacekeeping operations was inherently risky. Nevertheless, the Board was confident that it saw strong managerial resolve to secure first-time IPSAS-compliant financial statements.

The Board recommended that entities take stock of their investments in improved financial management capacity and capability and consider whether there was need for a more structured and formalized approach; and consider how the new information from the accounting framework could be used to drive improved longer-term and more strategic planning in important business functions. The Board also recommended that the Secretary-General should encourage the development of plans to transform the role of finance functions as leaders in driving forward the quality of financial management across the UN system. The Board further recommended that for peacekeeping operations, the Administration should prepare dry run financial statements for the first six months to 31 December 2013, as far in advance as possible of the full audit of the first set of IPSAS statements in the third quarter of 2014, and for the United Nations, Volume I opening balances by 1 September 2014. It should also complete the consolidation of all information for plant and equipment in relation to offices away from Headquarters, and verify that items were consistently capitalized and records were complete and accurate, and confirm that the reporting capability in Umoja, the UN resource enterprise system, could support the accurate allocation of cash and investments among cash pool participants.

In terms of mitigating the risk of using multiple legacy systems, the Administration should assure the completeness and reliability of accounting data for the United Nations and its peacekeeping operations financial statements, by 1 September 2014: document the consolidation process, showing the data flows between the different systems and the IPSAS Integrated Management Information System (IMIS) ledgers, and document and test the internal controls to check the accuracy and completeness of the data transferred between systems and posted to the IPSAS IMIS ledger. For the remaining entities going live in 2014, the Board’s recommendations were set out in the report for each entity.

**ACABQ report.** In its October report [A/69/414], ACABQ recommended that the General Assembly take note of the progress made since the issuance of the sixth progress report and request the Secretary-General to continue to report on the status of IPSAS implementation projects in the UN Secretariat and throughout the UN system.

In resolution 69/262 (see p. 0000), the General Assembly took note of the reports, endorsed the ACABQ conclusions and recommendations, and approved the recommendations of the Board of Auditors. It welcomed the progress made in the development of the benefits realization plan, and in that regard requested the Secretary-General, in the context of future progress reports, to include information related to capturing the quantitative and qualitative benefits across 15 key categories relating to the five key strategic benefits originally envisaged as resulting from the adoption of IPSAS.
Review of UN administrative and financial functioning

In 2014, the General Assembly continued its consideration of the efficiency of the administrative and financial functioning of the United Nations. To that end, the Secretary-General issued a report on the Independent Audit Advisory Committee (see below).

On the same date (decision 69/554), the Assembly decided that the item “Review of the efficiency of the administrative and financial functioning of the United Nations” remained for consideration during its sixty-ninth session.

Administrative and budgetary coordination

On 29 December (decision 69/554), the General Assembly decided that the item “Administrative and budgetary coordination of the United Nations with the specialized agencies and the International Atomic Energy Agency” remained for consideration during its sixty-ninth session. CEB report. In an August note [A/69/505], the Secretary-General transmitted to the General Assembly the UN system Chief Executives Board for Coordination (CEB) statistical report on the budgetary and financial situation of UN system organizations, prepared in accordance with Assembly resolution 63/311 [YUN 2009, p. 1368] and decision 67/553 B [YUN 2013, p. 1418] requesting the Secretary-General to create a central repository of information on operational activities for development, and to coordinate the annual compilation and analysis relating to the financial situation of those organizations. The CEB secretariat had worked to enhance the structure and content of the report. In particular, each new release of the survey included more comprehensive data on revenue and expenses relating to extrabudgetary resources from Governments and from non-State donors. The report followed the structure as the previous report, with a transparent presentation of revenue, expenses and approved budgets, in line with the International Public Sector Accounting Standards, as well as a table on total expenses for 2012–2013 by major programme category. Those categories allowed CEB to collect the financial data used by the Department of Economic and Social Affairs in its report on operational activities for development, thereby reducing the reporting burden on organizations.

On 29 December (decision 69/551), the General Assembly took note of the Secretary-General’s note transmitting the CEB statistical report on the budgetary and financial situation of UN system organizations, and decided to revert to the issue of the composition of the report.

Independent Audit Advisory Committee

In accordance with General Assembly resolution 67/258 [YUN 2013, p. 1471], the Independent Audit Advisory Committee submitted its seventh annual report [A/69/304] covering the period from 1 August 2013 to 31 July 2014. The report contained an overview of the Committee’s activities, the status of its recommendations, and its plans for 2015. It set out also the Committee’s detailed comments, including in response to the Assembly’s specific request for comments regarding the mandate review of the Office of Internal Oversight Services (OIOS) (see p. 0000) and on the pilot project for the public disclosure of internal audit reports.

During the reporting period, the Advisory Committee held four sessions and submitted two reports to the Assembly: its annual report to the Assembly for the period from 1 August 2012–31 July 2013 [YUN 2013, p. 1467]; and a report, through ACABQ, on the budget of OIOS under the support account for peacekeeping operations for the period from 1 July 2014 to 30 June 2015.

In resolution 69/253 (see p. 0000) of 29 December, the Assembly requested the Advisory Committee to continue to keep under review the practice of the publication of audit and evaluation reports, including those on the relationship of OIOS with management, the reputation of the Organization and the effectiveness of the new report format, and to provide relevant comments and observations in the context of its future reports.

In resolution 69/252 of the same date, the Assembly reaffirmed the terms of reference of the Committee as contained in resolution 61/275 [YUN 2007, p. 1471], and endorsed the observations and recommendations contained in its report.

Programme planning

Strategic framework for 2016–2017

The Secretary-General submitted the proposed strategic framework for 2016–2017 [A/69/6 (Part one & Corr.1)]. The framework comprised two parts: the plan outline reflecting the Organization’s long-term objectives and priorities (Part one) and the biennial programme plan (Part two), covering 28 programmes, to be carried out by the respective departments. The framework constituted the principal policy directive of the United Nations and served as the basis for programme planning, budgeting, monitoring and evaluation.

The nine programme areas for the 2016–2017 biennium were: promotion of sustained economic growth and sustainable development in accordance with the relevant resolutions of the General Assembly and UN conferences; maintenance of international peace and security; development of Africa; promotion of human rights; effective coordination of humanitarian assistance efforts; promotion of justice
and international law; disarmament; drug control, crime prevention and combating international terrorism in all its forms and manifestations; and effective functioning of the Organization.

The Committee for Programme and Coordination (CPC), at its fifty-fourth session (New York, 2–27 June [A/69/16]), examined the proposed framework and recommended that the General Assembly approve the eight priorities for the 2016–2017 biennium, as set out in paragraph 34 of the plan outline. In view of the differences among Member States on some aspects of the plan outline, the Committee recommended that the Assembly review the plan outline at its sixty-ninth session, under the agenda item entitled “Programme planning”.

On 2, 5 and 10 December, the General Assembly took note of the reports on the item “Programme planning” of the First (Disarmament and International Security) Committee [A/69/450] (decision 69/521); the Fourth (Special Political and Decolonization) Committee [A/69/464] (decision 69/526); the Sixth (Legal) Committee [A/69/508] (decision 69/530); the Third (Social, Humanitarian and Cultural) Committee [A/69/492] (decision 69/540); and the Second (Economic and Financial) Committee [A/69/477] (decision 69/549).

GENERAL ASSEMBLY ACTION

On 18 November [meeting 55], the General Assembly, on the recommendation of the Fifth Committee [A/69/539], adopted resolution 69/17 without vote [agenda item 133].

Programme planning

The General Assembly,

Recalling also the terms of reference of the Committee for Programme and Coordination, as outlined in the annex to Economic and Social Council resolution 2008(LX) of 14 May 1976,

Recalling further the Regulations and Rules Governing Programme Planning, the Programme Aspects of the Budget, the Monitoring of Implementation and the Methods of Evaluation, by which the relevant programmes and subprogrammes of the proposed strategic framework shall be reviewed by the relevant sectoral, functional and regional intergovernmental bodies, if possible during the regular cycle of their meetings,

Having considered the report of the Committee for Programme and Coordination on the work of its fifty-fourth session, the proposed strategic framework for the period 2016–2017: part one: plan outline and part two: biennial programme plan and the report of the Secretary-General on the programme performance of the United Nations for the biennium 2012–2013,

Reaffirms the role of the Committee for Programme and Coordination as the main subsidiary organ of the General Assembly and the Economic and Social Council for planning, programming and coordination;

2. Re-emphasizes the role of the plenary and the Main Committees of the General Assembly in reviewing and taking action on the appropriate recommendations of the Committee for Programme and Coordination relevant to their work, in accordance with regulation 4.10 of the Regulations and Rules Governing Programme Planning, the Programme Aspects of the Budget, the Monitoring of Implementation and the Methods of Evaluation;

4. Decides that the priorities of the United Nations for the period 2016–2017 shall be the following:

(a) Promotion of sustained economic growth and sustainable development in accordance with the relevant resolutions of the General Assembly and recent United Nations conferences;
(b) Maintenance of international peace and security;
(c) Development of Africa;
(d) Promotion of human rights;
(e) Effective coordination of humanitarian assistance efforts;
(f) Promotion of justice and international law;
(g) Disarmament;
(h) Drug control, crime prevention and combating international terrorism in all its forms and manifestations;
5. Stresses that setting the priorities of the United Nations is the prerogative of the Member States, as reflected in legislative mandates;
6. Also stresses the need for Member States to participate fully in the budget preparation process, from its early stages and throughout the process;
7. Requests the Secretary-General to prepare the proposed programme budget for the biennium 2016–2017 on the basis of the above priorities and the strategic framework as adopted in the present resolution;
8. Decides not to take a decision on the content of part one: plan outline of the proposed strategic framework for the period 2016–2017;
9. Requests the Secretary-General to ensure, when preparing future plan outlines, that the proposed strategic frameworks take fully into account the guidelines provided by the General Assembly in its resolutions 59/275, 61/235, 62/224, 63/247 and subsequent relevant resolutions;
10. Emphasizes the need for the Secretary-General to strictly adhere to the concepts, terms and mandates approved in the strategic frameworks, while preparing the related programme performance reports;
11. Recognizes the importance of continuing to improve the logical framework, and in this regard encourages
programme managers to further improve the qualitative aspects of indicators of achievement in order to enable better evaluation of results, bearing in mind the importance of defining the indicators in a way that ensures their clear measurability;

12. Endorses the conclusions and recommendations of the Committee for Programme and Coordination on evaluation, contained in chapter II, section C, of its report, on the annual overview report of the United Nations system support for the New Partnership for Africa’s Development, contained in chapter III, section A, and on United Nations system support for the New Partnership for Africa’s Development, contained in chapter III, section B, and requests the Secretary-General to ensure the timely implementation of the above-mentioned recommendations.

On 29 December (decision 69/554), the Assembly decided that the agenda item on programming planning remained for consideration during its sixty-ninth (2015) session.

**Programme performance**

Reporting in March [A/69/144] on the programme performance of the United Nations for the 2012–2013 biennium, the Secretary-General provided a comprehensive overview of the major developments and the work performed by the UN Secretariat during that period. Specifically, it included information on the results achieved by the Organization in terms of expected accomplishments and the achievement of outputs. The key results achieved by the Organization under its 10 programme elements gave Member States a high-level overview of the Secretariat’s performance.

The analysis of programme performance in regard to 33,696 mandated and additional outputs indicated an increase in implementation rates, from 90 to 91 per cent for mandated outputs and from 90 to 92 per cent for all outputs, compared with the previous biennium. The report also included a detailed recounting of the results obtained by each individual budget section on 876 expected accomplishments implemented under the 36 sections of the programme budget, as well as a brief summary of the main challenges encountered in the implementation of each programme and lessons learned to improve performance.

**CPC consideration.** Following consideration of the Secretary-General’s report, CPC, at its fifty-fourth session (New York, 2–27 June) [A/69/16], stressed the importance of the Secretariat using programme performance reports as a management tool in the strategic framework planning process, in line with the principles of results-based management, including by regularly reviewing programme performance. It recommended that the General Assembly request the Secretary-General to continue to provide information on the strains on some programme budgets and their impact on programme implementation. CPC noted the absence of information requested by the Assembly in resolution 67/236 [YUN 2012, p. 1459] on the impact of the reduction in the number of printed documents on the intergovernmental decision-making process in UN conferences and meetings, and therefore recommended that the Assembly request the Secretary-General to pursue full implementation of the decision in future programme performance reports. With a view to improving the presentation of the report, it stated that the Secretary-General should also be requested to include in future reports, under each section of the programme, a comparison with the previous biennium of the rate of implementation of mandated outputs, a comparison with the previous biennium of additional outputs implemented at the initiative of the Secretariat, and information on the main factors affecting the implementation of mandated outputs, when the rate of implementation for the biennium was below 90 per cent.

**Programme evaluation**

CPC considered the report of the Office of Internal Oversight Services (oitos) on the triennial review of the implementation of recommendations made by the Committee at its fifty-first session on the programme evaluation of the Department of Economic and Social Affairs (DESA) [E/AC.51/2014/2].

Support was expressed for the efforts made by DESA to successfully develop an implementation matrix to organize system-wide efforts to implement conference outcomes; the view was expressed that that initiative could be used as a best practice. CPC was of the view that the overall reduction by DESA in its report titles and printed copies should not adversely affect Member States’ access to information or access to reports in those countries with poor Internet access. Further, the paper-smart initiative had been approved only as a pilot and should not be seen as a means to increase the use of technology; there should be assurance, however, that the target audience was being reached. The view was also expressed that the paper-smart concept was a good one since it helped to reduce, among other things, the carbon footprint.

CPC recommended that the General Assembly request the Secretary-General to entrust oitos to include in its future recommendations indicators that make the impact/result of implementing such recommendations measurable.
